K.G.I.D.

Dear Mr. Cameron McKay:

I am still suffering because you have ^{denied} ~~defted~~ me of water by demanding I pay \$5,000 immediately and three more years of undeserved payments for nothing. It now occurs to me your action is the same as people who destroy property in certain cities after a peaceful demonstration. They are basically holding a city ransom as you are. I will probably have to go to the police about your extortion. Also, I want to write books to help mankind and I will probably write about how I dealt with the problem with K.G.I.D. Basically, I could react, feel angry, as I did before. Now, I realize what you're doing is against my principles and values so I'll fight you by not paying the money you demand and telling other people on what you did. Eventually, people can't let other people destroy property and demand cities defend police. People have to stand up ^{to} what they believe. That's what I'm doing. I'm acting proactively and I look at the indignities I still go through as normal. So many people are suffering from coronavirus, hurricane Laura, wild fires. What's my suffering?

All I know is that in the end
I'll be stronger. Already, I've been
getting more exercise and weight
training. Thanks to what you are
doing, I am doing more creative thinking,
I am being more resourceful. We all
need to solve problems. You will be
one of the many problems I will show
how I solved.

All I asked for is to be treated as
a new customer. I already paid more
than most. I understand you want utilities
to pay more, but eventually utilities fees
will be seen in a different way.
Just yesterday, on TV, people are told
they have to pay for when utilities don't
get as much revenue as before in another
tax even when people are asked to conserve
water. People are not stupid. Utilities are
seen as not bad, but maybe that will
change? Loss Pass is future tax? Come On

Virginie Toy
I am able to bear the suffering - Why? I know
someday you will denied either water or electricity.
② I am responsible for someone else suffering. I
deserve the suffering. No, I feel as anger.
You don't blame someone else, Remember that.

Dear Mr. McKay:

K.G.I.D.

It has dawned to me it is racial that you are so stubborn about dismissing me from trumped up charges to the tune of 15,000.

For your information, I was born and raised in the United States. I travel to China, but I would never live there. In fact, I am leery of going there again because I heard some Asian Americans have been kidnapped when visiting there. I know not a single person there. I didn't even bother learning of any relatives. None.

I read A Shadow War by C.N.N. Jim Scutts that some Asians lived among us and stole our secrets. I was very careful when a Chinese student from China worked at Lakeside Inn and befriended me. I never invited her to my house even when I only lived half a block from Lakeside Inn.

I have been a school teacher in S.F. for fourteen years. I taught in the Mission (Latino) District, Chinatown, and an all white neighborhood. I was a landlord for 30 years and never extorted money or done anything

reprehensible to anyone.

Even though Donald Trump is now trashing China, I will still vote for him. China and Russia are our enemies. So even though I am Asian I am loyal only to the U.S.A.

I realize that you must do what you must. I am currently drafting a piece for the media. I must let the public know what the water company is doing. We take util. fees for granted and have always believed they were trust worthy. I am now having doubts. Until something happens personally to one, one does not realize how things are.

I am still having inconveniences, but I look at the situation more strictly. People in construction use those horrible portable outhouses. People who suffered hurricanes and wild fire losses now have no water or electricity. Lots of people now suffer as I did.

Dear Mr. Cameron McKag:

I've written to prominent people before. I wrote to Pres Donald Trump in the beginning of his Presidency telling him it was my opinion that we should get out of the Middle East. Jim Scheffer of CNN in a Shadow War says our real enemies are Russia & China. I told Trump us being in the Middle East was like someone who goes to a casino, sees a big jackpot and plays it until he is losing his shirt. He has to leave or he will lose his shirt. Worst yet, someone else will come by and win the jackpot. The more the guy puts in, the less someone will get the prize.

I've written to Mitt Romney. His body language was wrong in the debate. I was surprised even sophisticated people would miss on that.

I've written Gov. Jerry Brown. I felt an executor of such a big state should know that S.H.T. was trying to steal people's property because of a law which was followed up on 3 or 4 years ago.

As I told Jodie Nelson, all people in spite of high ranks, are human. They will understand human suffering, etc. I haven't approached the Supreme Court Justices, but I will if

I hate to.

When I was a teacher in S. F.,
a girl in my class stole from ^{of} teacher's
desk and I found out, I shook her!
I never did that, I was upset that she
was learning bad ways. I can't shake
you. You're an adult, I've been
very patient and tried reasoning
with you.

However, you have to do what you
have to do. I also, I refuse to pay
extortion money. I'm a life bloomer,
I hope to write books to help men kind.
I might get publicity some day, I will
tell people about KGD when people
will respect my ideas and know I tell
the truth.

As you know, I am not senile even
if I am nearly eighty years old.
All I can say is: You haven't seen
anything yet!

Believe me, I usually tell the
truth.

- 3 -

I don't know why people think they could intimidate me... - wife? woman? Asian? eighty years old? At one time I owned 4 townhouses equivalent to 3 houses - all two stories, 2 car garages, 2 1/2 baths. My neighbor owned ^{the} commercial ^{property next door} and they wanted me to pay \$16,000 for a cyclone fence. (25 yrs ago!) I argued with a ^{career} ranked employee. Finally, I figured enough was enough. I contacted the man on top of Bottomline. I paid \$300+ to repair the fence. What this tells me that on this I probably didn't go high enough. I am not a suing person. You do not realize how serious this could have been. I truly think you should be punished. If I were to punish you, I think your company should pay the amount you want me to pay for nothing. (Went 15,000 - could be \$30,000, \$40,000 at this rate of trumped up bills) lawyer fees, general suffering, hotel bills (Aug. We \$2,400) and filing fees. In addition I think you should be denied water for one year, 5,000 fines to my charity if you do not best one year ^{water bills} use diary for one year on how you coped. If you go to your neighbor for water, \$2500 fine to my charity

and higher bills. ^(for your neighbor) I think the only way
for you to realize how serious this is, is
for you to experience the same. However,
in wild fires, Coronavirus loss of jobs,
Hurricanes make it possible for you to have
no water or electricity. You could visit a
relative and suffer a wild fire, hurricane.
As I know it, things will happen.
